

Day 2 / Session 2: Project Work

PART 1: To provide a foundation for the project you will develop today, complete #1-3 in the table below on your own.

PART 2: Share your challenges and solutions with the members of your group. In #4, note down additional suggestions they provide that will be useful as you organize your project.

1	In what context will you implement the project you develop today (e.g., methods course, workshops, introductory FL courses, other courses)?	
2	<i>Reflecting on Challenges:</i> What challenge(s) do you hope to address with this project?	
3	<i>Implementing Solutions:</i> How will you use the multiliteracies framework / SCT to address the challenge(s) you've identified?	
4	Suggestions from group members	

PART 3: Now brainstorm more detailed ideas to help organize your project. Fill in your own ideas under the first column; when you share your ideas with the group, fill in additional ideas under the second column.

	MY IDEAS	IDEAS FROM THE GROUP
Main goal of the project		
Sub-goals of the project		
Materials & resources needed		
Stakeholders and their role in the project		
Timeline for implementation		
Anticipated roadblocks		

PART 4: Reflect on how you will modify the materials you brought to the workshop to carry out the project according to (a) the ideas you've brainstormed here; (b) the multiliteracies framework; and (c) SCT-oriented teacher development principles.
